FIFTH SUPPLEMENTAL REISSUE DECLARATION

I, Kazumi SAKUMOTO, hereby declare:

1. That this fifth supplemental reissue declaration is being made to supplement my earlier declarations which comprise part of Reissue Patent Application Serial No. 08/493,979.

2. That I verily believe the original patent to be wholly or partly inoperative or invalid by reason of claiming less than I had a right to claim in the original patent because none of original independent patent claims 1-4 is directed to a method of displaying a paging message using an analog watch mechanism that includes a body with marks thereon and a plurality of hands for displaying time, the method comprising the steps of:

- (a) receiving a paging message; and
- (b) moving one of said hands to point to one of said marks to indicate a paging message.

3. To correct this error in claiming less than I had a right to claim, new independent claim 21 has been added. Independent claim 21 is directed to a method of displaying a paging message using an analog watch mechanism that includes a body with marks thereon and a plurality of hands for displaying time, the method comprising the steps of:

- (a) receiving a paging message; and
- (b) moving one of said hands to point to one of said marks to indicate a paging message.

4. That all errors which are being corrected in the present reissue application up to the time of filing of this declaration arose without any deceptive intention on my part.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that any willful false statements or the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false

statements may jeopardize the validity of this application or any patent resulting therefrom.

Dated: September 12, 2000
